Strategic Recommendations
Based on E-commerce Consumer Behavior Analysis — 2024

🔴 **URGENT: High-Value Churn Risk**
20 customers with avg CLV $2,927 show highest churn risk.
Action: Immediate personal outreach + exclusive retention offer.
Expected Impact: Protect ~$58K in revenue.

🟡 **OPPORTUNITY: Potential Loyalists**
237 customers with avg CLV $1,045 — one step from Loyal.
Action: Loyalty Program enrollment + bundle offers.
Expected Impact: 160% CLV increase per customer.

🟢 EFFICIENCY: Stop Wasting Budget
188 Lost + Low Risk customers — already disengaged.
Action: Remove from retention campaigns immediately.
Expected Impact: Reallocate budget to high-ROI segments.

💡 DISCOUNT STRATEGY
Discounts increase volume but reduce AOV ($276 → $274).
Action: Target discounts to Somewhat Sensitive only.
Avoid: Price-insensitive customers — revenue leakage.
